

The Preverde Retention Crate H150 is a modular water retention crate for use within the Preverde prefab garden system. The retention crate provides temporary water storage and forms the substructure for the Preverde Base Element.

The Preverde Retention Crate H150 has the following properties:

- Supplier: Preverde B.V.
- Size: 600 × 600 mm
- Height: 150 mm
- Area: 0.36 m²
- Dry weight: 7.5 kg/m²
- Water saturated weight: 150 kg/m²
- Water storage capacity: 142.5 l/m²
- Material: PP (mix recycled / virgin)
- Compressive strength: >500 kN/m²
- Connection: supplied connectors, 6 pieces/m²

Processing: according to current assembly and processing instructions from Preverde.
